## What is it?

**Spotify Web API:**

- **Quiz**
- **Listening Data**

## Why did we build this?

- **Daily Spotify usage**
- **Spotify Web API**
- **Listening stats are cool!**
- **Quizzes are fun!!**

## How did we build it?

### UX:

- **Simple, minimalist design**
- **Prevent information overload**
- **Easy to navigate**
- **Easier to develop**

## How did we build it?

### Tech:

#### Frontend:

- **React JSX**
- **CSS styling**
- **Styled-components**
- **React-icons**
- **Material UI**

#### Backend: (all client side)

- **React JSX**
- **React-router-dom**
- **Axios**
- **React testing library**

## What challenges did we face?

- Working with React
- Github collaboration
- Short time frame
- Login and authorisation with Spotify
- GET requests
- Quiz implementation

Google was our friend!

## Improvements?

- **Quiz implementation**
- **Responsive styling**
- **Deployment**
- **App approval from Spotify**

# Demo time!

# Thank you!
